***The Boy Who Harnessed  
the Wind:  
Creating Currents of  
Electricity and Hope***

**by William Kamkwamba**

Now in its second year, the "One Book, One School" program allows each of the district's four high schools to select one book that is read by all students and faculty from that school.

These books are interdisciplinary in nature, and with the help of LDTV and the

web, students have the opportunity to interact with each other throughout the summer and discuss the book through blogs and podcasts.
